DHARMARAJ RATHOD

WEB DEVEPOLER || GRAPHICS DESIGENER

Welcome to my resume! I am an enthusiastic and versatile professional who thrives at the intersection of web development and graphics design. With a solid foundation in both disciplines, I have successfully brought numerous projects to life, leveraging my skills in PHP, MySQL, graphics design, Reactjs and video creation. My journey as a tech-savvy creative has allowed me to develop a holistic approach to crafting immersive digital experiences.

Work Experience

2020 - 2022
JT PHOTO GRAPHICS SEC || DIGITAL CREATIVE HEAD
CESS || CODECELL

With a fervent passion for graphics design and video creation, I thrive on translating ideas into captivating visual narratives. From crafting intricate designs that convey brand stories to producing dynamic videos that engage and inspire, I relish every aspect of this creative process. Through design, I paint digital stories with pixels, while in video creation, I orchestrate narratives through motion and sound. My dedication to innovation ensures that each project I undertake resonates with authenticity and visual brilliance, leaving an indelible impact on audiences

2023-2024
ASSISTANT LEAD
CODECELL

As the Assistant Lead of CodeCell, a vibrant computer community within my college, I've had the privilege of fostering an environment of learning and collaboration. Guiding fellow students in their technical journeys, I've honed my leadership and teamwork skills while contributing to a dynamic knowledge-sharing ecosystem. Through CodeCell, I've not only expanded my understanding of technology but also cultivated a passion for mentorship that enriches both myself and the community. My role as Assistant Lead has allowed me to drive innovation, promote camaraderie, and contribute to the growth of aspiring tech enthusiasts.

2022-2023
WEB DEVELOPMENT EXPERTISE
Smart India Hackathon - Grand Finale Participant

Chosen for the esteemed Smart India Hackathon grand finale, I assumed the role of backend developer. Collaborating within a fast-paced 24-hour hackathon, I spearheaded the PHP backend development of a dynamic website tailored to amplify student productivity. This experience showcased my adeptness at innovative problem-solving and efficient coding. Our project's selection for the grand finale underscored my ability to thrive under pressure and contribute effectively to impactful solutions.

PROJECTS

COLLEGE PROJECT
MINOR PROJECT

TECHNOLOGY USED : HTML CSS PHP JS

PROJECT DESCRIPTION : In my second year, I completed a minor project focused on web development using PHP within the XAMPP environment. I crafted a robust login and signup system, demonstrating my proficiency in PHP programming, database management, and web security. This project highlighted my ability to create functional and user-friendly authentication systems.

GRAPHIC DESIGNING
FREELANCING

SOFTWARE USED : FIGMA, CANVA, CLIPCHAMP

DESCRIPTION : Experienced in crafting logos, brochures, photos, and posters, I am particularly skilled in Canva, where I excel as an expert designer. With a knack for translating ideas into visually compelling assets, I've consistently delivered impressive outcomes for various projects.
